SEROLOGY EXAMINATIONS

Grouping tests conducted on the K3 bone marrow sample from WEINBERGER disclosed the results set forth below.

K3 "Hp 1, Gc 1S"

and on K2

All additional grouping tests conducted on this specimen were inconclusive.

Human blood which was not further characterized was identified on specimens Q1 and K2. Chemical tests for the possible presence of blood were positive on specimens Q2 through Q6, however, in view of the nature of the specimens, no further characterization was done.

Specimens Q1 through Q6 and K2 were examined for the presence of semen, however, none was identified.

The paints from the Q1 (Laboratory number 10813030), Q2 (Laboratory number 10813031) and Q1 (Laboratory number 10813032) specimens were examined microscopically, microchemically and instrumentally. Based upon the comparison examinations conducted, these paints were determined to match in colors, textures, type and composition. Therefore, it was concluded that these paints could have originated from a common source.

The probable source of the above-described paints is a commercially available product called FLECK STONE in their "Gotham Gray" color. FLECK STONE is manufactured by the PLASTI-KOTE Company, Medina, Ohio, 44256, and can be found in both hardware and craft stores. The above-mentioned paints matched the "Gotham Gray" FLECK STONE in colors, texture, type and composition.

[REDACTED] DICTATION

10813031 S ZJ ZH
10813032 S ZJ ZH

2

The paints from the Q1 (Laboratory number 10813030), Q2 (Laboratory number 10813031) and Q1 (Laboratory number 10813032) specimens were examined microscopically, microchemically and instrumentally. Based upon the comparison examinations conducted, these paints were determined to match in colors, textures, type and composition. Therefore, it was concluded that these paints could have originated from a common source.

The probable source of the above-described paints is a commercially available product called FLECK STONE in their "Gotham Gray" color. FLECK STONE is manufactured by the PLASTI-KOTE Company, Medina, Ohio, 44256, and can be found in both hardware and craft stores. The above-mentioned paints matched the "Gotham Gray" FLECK STONE in colors, texture, type and composition.

The paints from the Q1 (Laboratory number 10813030), Q2 (Laboratory number 10813031) and Q1 (Laboratory number 10813032) specimens were examined microscopically, micro-chemically and instrumentally. Based upon the comparison examinations conducted, these paints were determined to match in colors, textures, type and composition. Therefore, it was concluded that these paints could have originated from a common source.

The probable source of the above-described paints is a commercially available product called FLECK STONE in their "Gotham Gray" color. FLECK STONE is manufactured by the PLASTI-KOTE Company, Medina, Ohio, 44256, and can be found in both hardware and craft stores. The above-mentioned paints matched the "Gotham Gray" FLECK STONE in colors, texture, type and composition.

██████████ DICTATION

JEFFERY DAMMER - SUSPECT
MATT TURNER - VICTIM
HOMICIDE
MILWAUKEE, WISCONSIN
NOVEMBER 12, 1981

File # 86-299726-2
Lab # 10813038 S 2J QW
LCMS # NA

SEROLOGY EXAMINATIONS

Grouping tests conducted on the K3 bone marrow sample and the K2 saliva sample were inconclusive.
Submitted under FBI Laboratory number 108/2316

Human blood was identified on specimen K2. Chemical tests for the possible presence of blood were positive on specimens Q1 through Q4. In view of the nature of the specimens, no further characterization was conducted on these specimens.

Specimens Q1 through Q4 and K2 were examined for the presence of semen, however, none was identified.

Dear [REDACTED]

Attached is a pre-mortem head and neck radiograph of Mr. Steven Hicks (DOB 6-22-59), taken at age ca. 13 years. Mr. Hicks is believed to be Jeffrey Dahmer's first victim who was killed in 1978 in Bath, Ohio. I would like to request that the radiograph be enhanced to show detail in the vertebrae of the lower neck. If the image can be enhanced, my office will examine the internal structure of the fifth cervical vertebrae for points of similarity with a postmortem radiograph of the same bone now in our laboratory. If successful, this technique will help confirm the personal identity of Mr. Hicks.

DETAILS:

At approximately 10:35 a.m. on 8/2/91 the Director received a telephone call from Reverend Jesse Jackson, who expressed concern over the growing community distress in Milwaukee. Rev. Jackson asked that the Director meet with him in Washington, D. C., on Monday, 8/5/91, at 11:00 a.m., to discuss possible FBI intervention in the investigation of the multiple murders and Jeffrey Dahmer. The Director advised he would be unable to meet on Monday, but would immediately consult with the Department concerning the Milwaukee situation.

Memorandum to the Director from W. M. Baker dated 8/5/91,
RE: JEFFREY L. DAHMER

Deputy Assistant Director Larry A. Potts of the Criminal Investigative Division (CID) advised the Director that the FBI had offered assistance in this case to include assistance with out-of-state lead coverage as well as providing extensive laboratory examinations and profile information. Contact has been maintained on a daily basis by CID with the Milwaukee office and on 7/27/91 and 8/2/91 Linda Davis, Chief of the Criminal Section, Civil Rights Division, Department of Justice, was consulted for an opinion as to whether a civil rights inquiry by the FBI was appropriate. Ms. Davis indicated she did not believe the facts in this case constitute a violation of the Federal Civil Rights Statutes and no FBI investigation was appropriate.

The Director telephoned Assistant Attorney General (AAG) John R. Dunne at approximately 11:00 a.m. and advised him of the above information. The Director stated to AAG Dunne that it seemed appropriate for him to be involved because of the nature of the problem and the fact that the Community Relations Service (CRS) may have a role to play. The Director made it clear to AAG Dunne that the CRS had not been mentioned to Reverend Jackson. AAG Dunne concurred with the current position of the FBI and was advised by the Director this would not change unless we heard from him to the contrary. AAG Dunne agreed to call Rev. Jackson at local telephone number [REDACTED] to discuss any concerns. *b7c*
