

Edam Walsh

On July 26, 1981 Otis Toole abducted Adam Walsh from Sears in Hollywood Florida. Otis Toole was driving a white and brown Cadillac because he had kicked his Continental at Michigan. After abducting the child Otis took him to a wooded area and sexually abused the child and killed him with a bushaxe. The cause of death was upon the entry of the side blade through the left part of the neck. Otis then withdrew blood from the child's body and placed the blood in a container. The remainder of the body was then cut in separate parts and the complete body along with the head and bushaxe was thrown into the water.

A few hours or days later the head of the child came back afloat and was found by a person unknown to Otis. According to Otis statement he was in the Hollywood area in search of Frieda Powell. Otis had recently returned from up North. Simply Otis did not know that Lucas was already in custody and that Frieda was dead. The person who I recall that was with Otis is some guy named Frank. After the murder Otis returned to Jacksonville Florida but stopped at Ft. Lauderdale and Daytona Beach to see X and Nat. ~~Thompson~~ <sup>Thompson</sup>
