

1 INVESTIGATOR GARDNER: You need to be aware of
2 that.

3 The nature of this test is to try to come to some
4 determination as to whether or not the information that
5 you have given the Hollywood Police and, I guess, in
6 your interview with Mr. Ralph (inaudible) this past
7 Saturday, is information that has come to you from your
8 own eyes and physically seeing the events occur, or if
9 any of that information has kind of come to you through
10 any publications or media events.

11 MR. MISTLER: Right.

12 INVESTIGATOR GARDNER: If you're stating that
13 you've given some of the facts were observed, like in
14 the paper or on TV or something like that, and if that
15 in fact is what you're giving to them.

16 And we're going to be talking about all of -- a
17 lot of different issues, how you come about certain
18 things, how certain things may be changed from one time
19 to another and things of that sort.

20 We just want to make certain that the information
21 you're giving us accurate in its -- the manner in which
22 it was presented to the police back in 1991.

23 I'm the examiner for the State Attorney's Office,
24 I've been doing these tests here for about twelve
25 years.
